ARTICLE 1 INTRODUCTION

SECTION 1.0 PURPOSE

The purposes of this Ordinance are to promote the general welfare of the City of Springfield, to protect the health and safety of its inhabitants, to promote economic development, to encourage the most appropriate use of land throughout the City, to preserve the cultural, historical, architectural, and OPEN SPACE heritage of the community, to increase the amenities of the City, and to reduce the hazard from fire by regulating the location, use, and arrangement of BUILDINGS and the urban and OPEN SPACES around them.

SECTION 1.1 TITLE

This Ordinance shall be known and may be cited as the “Springfield Zoning Ordinance.”

SECTION 1.2 AUTHORITY

This zoning ordinance is enacted in accordance with the provisions of the Massachusetts General Laws (M.G.L.) Chapter 40A, and any and all amendments thereto, and is authorized by Article 89 of the Amendments to the Constitution of the Commonwealth of Massachusetts (the “Home Rule Amendment”). By the authority of the Home Rule Amendment, the City of Springfield has all legislative powers which the Massachusetts Legislature is empowered to grant to the City, regardless of whether or not such powers have been explicitly granted, except to the extent such powers are explicitly limited by any general or special law of the Commonwealth or by any federal law.

SECTION 1.3 INTRODUCTION AND USER GUIDE

This zoning ordinance enables Springfield to enhance economic development opportunities, protect neighborhood character, and preserve and enhance the urban fabric of the City. It is designed to strike a balance between achieving the community’s goals and protecting the property interests of landowners while providing a development approval process that is predictable, efficient and fair.

Section 1.3.10 Overview

This section provides a brief overview of the content of the zoning.

1.3.11 Definitions

Article 2 contains definitions of key terms, which are identified throughout the text using SMALL CAPS. Whenever there is a word in SMALL CAPS, it is a “defined term” that can be found in Article 2. For specialized definitions, such as those related to Signs, Article 2 references another location which contains those particular definitions.

1.3.12 Land Use Districts

This Ordinance divides the City into land use districts and overlay districts and establishes rules for the use of land in each district. The text is accompanied by a ZONING MAP which shows where the various districts are located. Article 3 establishes the districts and identifies their purposes.

1.3.13 Allowed Uses, Procedures, and Special Situations

Article 4 contains a comprehensive Use Table (Table 4-4) which lists the “uses” or activities that are allowed in each district. For example, certain districts are primarily for residential use, but allow some other activities, such as HOME BASED BUSINESSES, but only if they meet certain standards. These special situations are described in the second half of Article 4. The Definitions in Article 2 explain what the different USE categories in the Use Table mean. Article 4 also includes Supplemental Regulations which address a variety of Use rules such as MOBILE HOME PARKS. The TIERED REVIEW process that is applied to certain uses in the Use Table is summarized below.

- A. Tier 1: Administrative Site Plan Review.
 - 1. Administrative Site Plan Review is a process where the USE is allowed by right and is reviewed using the criteria found in Section 12.2.20.
 - 2. Administrative Site Plan Review is conducted by the Office of Planning and Economic Development, without a public meeting.
- B. Tier 2: Planning Board Site Plan Review.
 - 1. Planning Board Site Plan Review is similar to Administrative Site Plan Review, where the Use is allowed by right, but where conditions may be placed on the approval to better meet the intent or purpose of the district and using the criteria found in Section 12.3.50.
 - 2. Planning Board Site Plan Review involves a public hearing. The PLANNING BOARD RULES AND REGULATIONS shall specify the process for conducting this hearing.
- C. Tier 3: Planning Board Special Permit Review
 - 1. Planning Board Special Permit Review allows the Planning Board to reasonably consider factors submitted by the applicant, the

impact of the Use, and the reasonableness of the proposed USE for the subject site under the criteria in Section 12.4.60.

2. Planning Board Special Permit Review requires a Public Hearing by the Planning Board.

D. Tier 4 City Council Special Permit Review

1. The City Council Special Permit Review applies to projects that are likely to have a substantial impact and that therefore require review of the city's legislative body. As in the Tier 3 Review process, the City Council must hold a public hearing and may consider the reasonableness of the USE for the site, as well as the design and impacts associated with the proposed USE under the criteria in Section 12.5.60.

- E. Table 4-4, the Use Table includes a cross reference to "Supplementary Regulations" so that the reader sees whether a particular USE category has additional rules, such as a BED AND BREAKFAST.

1.3.14 Dimensional Standards

Article 5 contains dimensional tables for Residential, Commercial and Industrial Districts that describe the requirements for LOT size, required YARDS (also known as setbacks), and other requirements about the permissible amount, size, type, and location of DEVELOPMENT on a LOT.

1.3.15 Special Situations

Article 6 contains options for flexibility in DEVELOPMENT patterns, such as Campus Master Plans, which is an optional process for large institutions such as HOSPITALS and COLLEGES. ADULT ENTERTAINMENT and WIRELESS COMMUNICATIONS are covered in this article as well.

1.3.16 Site Standards: Parking, Landscaping, etc.

Article 7 provides site design standards covering LANDSCAPING, PARKING and LOADING, lighting, vehicle access, and related matters. These apply to USES in all districts, with the exception of SINGLE-FAMILY residences.

1.3.17 Overlays and Special Districts

Article 8 covers "overlay" districts, which are designed to deal with unique characteristics of particular parts of the City, including floodplains, mixed-use neighborhood shopping areas and Urban Renewal Districts that have special zoning requirements. The provisions of the overlay districts apply in addition to those of the "underlying" land use district.

1.3.18 Sign Regulations

Article 9 contains SIGN regulations and the related special defined terms.

1.3.19 Nonconforming Uses, Structures, and Lots

Article 10 contains rules for allowing the continuation of certain features that were legal under previous regulations but do not conform to this zoning ordinance. This is sometimes referred to as “grandfathering” and in this Ordinance is called “Nonconforming.”

1.3.100 Permit Procedures and Administration

Article 11 and Article 12 explain the procedures for obtaining various types of permits from the City including BUILDING PERMITS from the BUILDING COMMISSIONER, Special Permits and Site Plan approval from the Planning Board, and variances from the Board of Appeals. Article 12 tells applicants what materials they need to submit, what the approval criteria are, and who will approve the permit (staff, Planning Board or City Council). Article 13 contains the procedures for amending this zoning ordinance to change the map or the text.

Section 1.3.20 How to Use the Zoning Ordinance

Landowners and others who use this Ordinance are encouraged to meet with the BUILDING DEPARTMENT to discuss how this zoning ordinance applies to their property.

1.3.21 Single-family and Two-family Homeowners

Homeowner concerned with a SINGLE-FAMILY or TWO-FAMILY DWELLING, should speak with the BUILDING DEPARTMENT. Most of the concerns regarding these developments are addressed in Article 4 and Article 5. If a DWELLING does not meet current standards for YARDS, LOT COVERAGE, or LOT size, the grandfathering (also known as “nonconforming”) provisions in Article 10 may apply.

1.3.22 Multi-Family or Business Uses

For matters regarding MULTI-FAMILY housing or businesses, the BUILDING COMMISSIONER and the Office of Planning and Economic Development should be consulted to determine which sections of this Ordinance will apply.

1.3.23 The Steps to follow in the Zoning Ordinance

A typical sequence of steps in using this Ordinance is as follows:

- A. Check the ZONING MAP to determine what ZONING DISTRICT (and overlay districts, if any) the subject property is in.
- B. If the property is located in an Overlay District, review the provisions of applicable Overlay District(s) in Article 8.

- C. Consult the Article 4 Use Table (Table 4-4), along with any relevant definitions in Article 2 (defined terms are shown in Small Caps), to determine whether the proposed USE is allowed in that district and what permits and approvals may be required. Table 4-4 may also reference other applicable regulations that may apply to the proposed use. Also check the Index of this Ordinance for specific sections that deal with related Defined Terms.
- D. Consult the dimensional tables in Article 5 to see what YARD, BUILDING HEIGHT and other dimensional standards apply. Consult Article 7, Site Regulations, which specify what and if landscaping or parking spaces are required.
- E. Consult Article 10, Nonconforming uses, if the existing legal USE of a property is no longer permitted in the ZONING DISTRICT, or if the existing BUILDING or LOT does not comply with dimensional standards for the ZONING DISTRICT.
- F. If the Use Table indicates that the proposed USE or STRUCTURE is permitted, refer to Article 11 regarding BUILDING PERMITS or USE PERMITS. If the USE requires a Site Plan Review or a Special Permit, refer to Article 12.

SECTION 1.4 ORGANIZATION

Section 1.4.10 Organization of Articles

1.4.11 General Layout

The Articles (or chapters) are organized as a reference document. It is not intended to be read from cover to cover. Instead, it is organized so you may look up only the parts you need. ARTICLE 4 USE REGULATIONS

SECTION 4.0 PURPOSE

The purpose of Article 4 is to establish regulations, standards, and review procedures for different uses of land in each of the ZONING DISTRICTS established by Article 3.

SECTION 4.1 GENERAL PROVISIONS

Section 4.1.10 Applicability of Use Regulations

Except as otherwise provided in this Ordinance or by superseding state or federal law, BUILDINGS, STRUCTURES, or land shall be used only for the purposes permitted in the specified districts as provided in this article.

Section 4.1.20 Determination of Use

The BUILDING COMMISSIONER, with guidance from this ordinance, shall determine whether any specific USE falls within a USE category listed in Table 4-4, Use Table, and if so, which category of USE. The determination of the Commissioner may be appealed to the Board of Appeals as provided in Section 11.2. When different USES occur together on a LOT and/or in the same BUILDING, (for example retail and office and/or residential) the USE which triggers the highest level of review shall determine the level of TIERED REVIEW for the entire application.

Section 4.1.30 Uses Not Listed

Any use not listed in Table 4-4, Use Table, shall be construed to be prohibited, except that the BUILDING COMMISSIONER may allow a use not listed in the Use Table if it is determined that the use is substantially similar in character and impact to another use listed as permitted in the zoning district.

SECTION 4.2 TIERED REVIEW LEVELS

Section 4.2.10 Tiered Review System

This Ordinance designates some USES as permitted AS OF RIGHT in specified districts, requiring only a BUILDING PERMIT or USE PERMIT as described in Article 11 and Article 12. Such USES are designated by a “Y” in Table 4-4, Use Table. USES not allowed are shown with an “N” in Table 4-4. For all other USES in Table 4-4, this Ordinance establishes a TIERED REVIEW based on the scale and potential impact of the particular USE. These tiers are outlined in Table 4-1 and illustrated in Diagram 4-1.

Section 4.2.20 Determination of Applicable Tiered Review

4.2.21 Tier Specified in Use Table

If Table 4-4 specifies that a certain USE is subject to a specific tier of review (1, 2, 3 or 4), then that review level applies regardless of the size or impact of the USE.

4.2.22 Tier Not Specified in Use Table

In order to provide review procedures that match the scale of development, Table 4-4 designates many USE categories with a “T” designation. In that case, such USE is subject to SITE PLAN and/or Special Permit approval and the applicable TIERED REVIEW shall be based on the thresholds found in Table 4-2. These thresholds include common impact measurements such as number of DWELLINGS, FLOOR AREA, and BUILDING HEIGHT. It is the threshold that triggers the highest TIERED REVIEW that is the determining factor. In the case of a MIXED-USE BUILDING, or a USE where the threshold in Table 4-2 is not clear, then the TIERED REVIEW level shall be determined by the BUILDING COMMISSIONER, with guidance from this ordinance.

4.2.23 Higher Thresholds for Reuse of Existing Structures

Where an application for a proposed USE designated as “T” in table 4-4 involves the REUSE or expansion of an existing STRUCTURE in which at least three existing exterior walls will remain in place, the applicable tier shall be based on the thresholds in Table 4-2, Thresholds for TIERED REVIEW under the section *Reuse of Existing Structures*. The applicable TIERED REVIEW shall be based on the parameter in Table 4-2 (number of DWELLING UNITS, FLOOR AREA or HEIGHT) that triggers the highest level of TIERED REVIEW. The proposed size of the STRUCTURES as modified (not in their existing condition) shall be used in determining which thresholds apply. In the case of a MIXED-USE BUILDING, or a USE where the threshold in Table 4-2 is not clear, then the level of TIERED REVIEW level shall be determined by the BUILDING COMMISSIONER.

4.2.24 Expansion of Uses and Changes of Tenancy and Use

- A. A change of tenancy in an existing building in which the existing use is continued and no exterior site alterations are made, shall not require any approvals under this ordinance.
- B. A new use occurring within an existing building shall not require any approvals under this ordinance, provided that the new use is not listed on Table 4-4 as requiring a Tier 3 or Tier 4 special permit, that the building is not enlarged, and that no exterior site alterations are made.
- C. As used in this section 4.2.24, the term “exterior site alterations” means any development occurring outside of an existing structure, excluding changes in the content of existing signage, the repair, replacement,

upgrading, and maintenance of existing site facilities (such as landscaping, lighting, curb cuts, and parking, and changes to facades and storefronts.

- D. Where an expansion of a building, or the construction of one (1) or more new buildings is proposed on the site of an existing building which is to be retained, such expansion or construction shall be reviewed according to the number of dwelling units or floor area as shown on Table 4-2. In applying Table 4-2, only the dwelling units and floor area being added to the site shall be counted in determining the applicable tier of review. If the building, lot or use is nonconforming, the provisions of Article 10 “Nonconforming Uses, Structures, and Lots” shall apply to any expansion or construction.
- E. The reuse of an existing building shall be reviewed as provided in Tables 4-2 and 4-4. A change of use within an existing building shall be reviewed as provided in B above.

The TIERED REVIEW process above does not apply to Special Permits for dimensional variations, as provided in Section 12.6, or to findings allowing expansion of certain NONCONFORMING USES or STRUCTURES, as provided in Section 10.1.50.

Section 4.2.40 Site Plan Review for Exempt Uses

Section 12.7 establishes Site Plan Review procedures for religious, educational and certain child care uses that are exempt from USE regulation and subject to a limited form of Site Plan Review under state law. The procedures in Section 12.7 supersede any other review provisions in this Ordinance.

- C. Before the issuance of any permit under this section, the applicant shall file with the City Treasurer a Performance Guarantee, such as a Letter of Credit, cashier's check or equivalent form of security, running to the City with sureties satisfactory to the BUILDING COMMISSIONER in such sum as the BUILDING COMMISSIONER shall determine, and be twice the estimated cost of conforming with the provisions of this Ordinance.

- G. Inspection of the site shall be made every sixty (60) days or as determined to be necessary by the BUILDING COMMISSIONER. The DEPARTMENT OF PUBLIC WORKS shall, at the request of the BUILDING COMMISSIONER, make any surveys necessary to assure compliance with this section.
- H. Each application for a permit by the BUILDING COMMISSIONER, shall be accompanied by the required fee.
- I. A permit shall bear the date of the day on which it is issued, and unless sooner revoked by the BUILDING COMMISSIONER, shall continue in force for two (2) years from such date.
- J. No EXCAVATION or removal of earth, sand, gravel, clay, quarry stone, peat, or mineral ore for which a permit has been granted under this section shall be stopped for a period of more than one (1) year, unless the area excavated has been topped as required by paragraph E of this section, or the applicant shall forfeit his bond and the permit revoked. The BUILDING COMMISSIONER shall then proceed to top the area as required by paragraph E.

Section 4.7.70 Prohibited Uses and Performance Standards

No USE which is noxious or offensive by reason of odor, dust, smoke, gas, vibration, illumination or noise, or which constitutes a public hazard whether by fire, explosion, or otherwise, shall be permitted in any district. In determining whether a USE is noxious, hazardous, or offensive, the following standard shall apply:

4.7.71 Air Pollution

Air pollutants shall not exceed the limits prescribed by the regulations of the Massachusetts Department of Environmental Protection or any other applicable regulations.

4.7.72 Water Pollution

The USE of and discharge of substances into lakes, streams or similar water bodies shall not violate the rules, regulations, or water quality standards adopted by the Massachusetts Department of Environmental Protection or any other applicable regulations.

4.7.73 Noise

All noise shall comply with the Noise Control City Ordinance, Chapter 7.2.

4.7.74 Vibration

No vibration, other than that caused by MOTOR VEHICLES, trains or aircraft being operated in a manner normally incidental to the PRINCIPAL USE on any LOT, shall be permitted which is discernible without instruments at any property line of the LOT of the USE concerned.

4.7.75 Nuisance Odors and Air Emissions

There shall be no emission of toxic or noxious matter or objectionable odors of any kind in such quantity as to be readily detectable at any property line of the LOT on which the USE emitting the toxic or noxious material or odor is located. For the purpose of this section, toxic or noxious matter is any solid, liquid, or gaseous matter including, but not limited to gases, vapors, dusts, fumes, and mists, containing properties which by chemical or other means are:

ARTICLE 5 DIMENSIONAL AND INTENSITY REGULATIONS

SECTION 5.0 PURPOSE

The purpose of this Article is to establish dimensional standards for all districts. As Article 4 deals with USES, this Article deals with the location and size of STRUCTURES. In addition to structural dimensions, this Article also contains the minimum LOT standards, which are related to the residential density (number of units per acre) and the intensity at which DEVELOPMENT occurs.

SECTION 5.1 GENERAL PROVISIONS

Section 5.1.10 Lots and Structures, Generally

5.1.11 No division of land shall be made which results in the creation of any LOT having dimensions less than the minimum required by this Article for the BUILDING or USE located thereon within the district in which the LOT is located.

5.1.12 No BUILDING, STRUCTURE, DEVELOPMENT or other improvement shall be constructed which results in any dimension or ratio that is greater than the maximum or less than the minimum required by this Article for the district in which the LOT is located.

Section 5.1.20 Specific Dimensional and Intensity Requirements

5.1.21 Lot Area

When this Article specifies a minimum LOT AREA, no PRINCIPAL BUILDING or USE shall be located on any LOT of lesser area, except as may be permitted by Section 10.2, NONCONFORMING LOTS.

5.1.22 Lot Frontage

When this Article specifies a minimum LOT FRONTAGE, no PRINCIPAL BUILDING or USE shall be located on a LOT which fronts a lesser distance on a STREET, except as may be permitted by Article 10.

5.1.23 Lot Width

When this Article specifies a minimum LOT WIDTH, no PRINCIPAL BUILDING shall be located where the LOT WIDTH is less than the specified width at the point of the BUILDING closest to the FRONT LOT LINE.

5.1.24 Open Space

When this Article specifies a minimum percentage of OPEN SPACE, no BUILDING or USE shall be located on any LOT in a manner that does not provide such OPEN SPACE.

5.1.25 Yards

When this Article specifies a minimum YARD dimension, no BUILDING or STRUCTURE shall be erected within the specified distance from the applicable LOT LINE, except as permitted hereinafter.

5.1.26 Building Height

When this Article specifies a maximum BUILDING HEIGHT no part of a BUILDING shall exceed the specified number of stories, and no part of a BUILDING shall exceed the maximum height in feet, except as permitted hereinafter.

5.1.27 Building Coverage

When this Article specifies a maximum BUILDING COVERAGE, the percentage of a LOT covered by all BUILDINGS and STRUCTURES, including ACCESSORY STRUCTURES, shall not exceed said maximum BUILDING COVERAGE, except as permitted hereinafter.

Section 5.1.30 Application of Multiple Requirements

When this Article specifies two (2) requirements for the same dimension (e.g., maximum BUILDING HEIGHT stated both in feet and in stories, or minimum SIDE YARD stated both in feet and as a percentage of BUILDING HEIGHT), the more restrictive shall apply unless explicitly stated otherwise.

ARTICLE 6 SPECIAL USE REGULATIONS

SECTION 6.0 PURPOSE

This Article includes a variety of regulations for specific types of development or uses. Several Sections of this article provide detailed standards for specific uses as referenced in Table 4-4, Table of Use Regulations.

SECTION 6.1 CAMPUS MASTER PLAN REVIEW

Section 6.1.10 Purpose and Intent

6.1.11 The purpose of this section is to provide a means by which a major “campus” DEVELOPMENT may continue to function and grow in a sensitive and planned manner that preserves the integrity and long-term viability of the surrounding neighborhoods. The Campus Master Plan option is designed primarily for colleges, universities and similar educational facilities (whether or not these are exempt from USE regulation under State law) that include multiple BUILDINGS and uses in campus environments adjacent to neighborhoods. The option may also be used by other exempt entities such as hospitals and religious uses that have similar campus settings in residential districts.

6.1.12 This Section provides an optional process for reviewing and approving a long-range development plans that is intended to achieve the following benefits for the campus, the surrounding neighborhoods, and the City:

- A. Encourage communication and coordination between the institution and the City on matters of campus growth and neighborhood stability;
- B. Permit appropriate growth within defined campus boundaries;
- C. Accommodate development flexibility and logical campus design by allowing appropriate modifications of dimensional regulations and parking requirements;
- D. Minimize adverse impacts on surrounding neighborhoods by ensuring adequacy of public utilities, parking, transportation facilities, and transitional and buffer areas;
- E. Expedite the review and approval process for campus development that conforms to an approved long-range plan.

Section 6.1.20 Application of Regulations

- 6.1.21 The regulations and requirements of the ZONING DISTRICT shall apply unless specifically modified by a Campus Master Plan approved in accordance with this section.
- 6.1.22 A Campus Master Plan may modify dimensional requirements and other development standards of the DISTRICT.
- 6.1.23 A Campus Master Plan approval process shall replace otherwise applicable review provisions in Articles 4 and 12.

Section 6.1.30 Campus Master Plan Submission Requirements

- 6.1.31 A Campus Master Plan shall be comprised of scaled drawings and accompanying reports which adequately describe the extent of the existing and proposed institution along with long-range growth objectives and an assignment of the institution's related land uses.
- 6.1.32 A Campus Master Plan and accompanying documentation shall be sufficient in detail to provide the public with a good understanding of the developed campus' impact on the adjoining neighborhoods.
- 6.1.33 A Campus Master Plan shall distinguish among the following types of generalized campus activities:
- A. Instructional areas, such as classrooms and labs;
 - B. General administrative offices;
 - C. Support services, such as major parking areas, food services and bookstores;

SECTION 6.2 WIRELESS COMMUNICATIONS FACILITIES

Section 6.2.10 Intent

The purpose of this section is to establish standards for the siting of WIRELESS COMMUNICATIONS TOWERS and ANTENNAS and ancillary facilities. The goals of this section are to:

- 6.2.11** Protect residential ZONING DISTRICTS, residential USES, historic assets, and educational USES from potential adverse impacts of TOWERS and ANTENNAS;
- 6.2.12** Encourage the location of TOWERS on City owned property where appropriate or in other non-residential areas;
- 6.2.13** Minimize the total number of TOWERS throughout the community;
- 6.2.14** Strongly encourage the joint use of new and existing TOWER sites as a primary option and discourage construction of additional single-use TOWERS;

- 6.2.15 Encourage the USE of existing BUILDINGS, TELECOMMUNICATION TOWERS, light or utility poles and/or TOWERS, as opposed to construction of new TELECOMMUNICATION TOWERS;
- 6.2.16 Encourage users of TOWERS and ANTENNAS to locate them, to the extent possible, in areas where the adverse impact on the community is minimal;
- 6.2.17 Ensure that all TELECOMMUNICATION FACILITIES, including TOWERS, ANTENNAS and ANCILLARY FACILITIES are located and designed to minimize the visual impact on the immediate surroundings and throughout the community by encouraging users of TOWERS and ANTENNAS to configure them in a way that minimizes the adverse visual impact of the TOWERS and ANTENNAS through careful design, siting, landscape screening, and innovative camouflaging techniques;
- 6.2.18 Enhance the ability of the providers of telecommunications services to provide such services to the community quickly, effectively, and efficiently;
- 6.2.19 Consider the public health and safety of TELECOMMUNICATION TOWERS; and
- 6.2.100 Avoid potential damage to adjacent properties from TOWER failure through engineering and careful siting of TOWER STRUCTURES.
- 6.2.110 In furtherance of these purposes, the City shall give due consideration to its master plan, neighborhood plans, ZONING MAP existing land USES, and environmentally and historically sensitive areas in approving sites for the location of TOWERS and ANTENNAS.

of constructing TOWERS and/or ANTENNAS shall be treated as a USE by right, subject to Tier 2 Site Plan Review by the Planning Board. All information required for submission in a Special Permit application shall be required in such cases.

6.2.34 Amateur Radio Station Operators/Receive Only Antennas

This section shall not govern any TOWER, or the installation of any ANTENNA, that is under seventy (70) feet in height and is owned and operated by a federally-licensed amateur radio station operator or is used exclusively for receive only ANTENNAS.

6.2.35 Satellite Dish Antennas

This section shall not govern any parabolic dish ANTENNAS used for transmission or reception of radio signals associated with satellites.

Section 6.2.40 General Requirements

6.2.41 Principal or Accessory Use

A different existing STRUCTURE or USE on the same LOT shall not preclude the installation of a WIRELESS COMMUNICATION facility on such LOT. If a TOWER and its ancillary facilities constitute the sole USE of the LOT, the TOWER shall be deemed to be the PRINCIPAL USE otherwise, the USE shall be considered accessory.

6.2.42 Leased Area

For purposes of determining whether the installation of a TOWER or ANTENNA complies with zoning regulations, including but not limited to setback requirements, LOT COVERAGE requirements, and other such requirements, the dimensions of the entire LOT shall control, even though the ANTENNAS or TOWERS may be located on leased parcels within such LOT.

6.2.43 State or Federal Requirements

All TOWERS must meet or exceed current standards and regulations of the FAA, the FCC, and any other agency of the state or federal government with the authority to regulate TOWERS and ANTENNAS. If such standards and regulations are changed, the owners of the TOWERS and ANTENNAS governed by this Section shall bring such TOWERS and ANTENNAS into compliance with such revised standards and regulations within ninety (90) days of the effective date of such standards and regulations, unless a different compliance schedule is mandated by the controlling state or federal agency. Failure to bring TOWERS and ANTENNAS into compliance with such revised standards and regulations shall constitute grounds for the removal of the TOWER or ANTENNA at the owner's expense.

6.2.44 Building Codes: Safety Standards

To ensure the structural integrity of TOWERS, the owner of a TOWER shall ensure that it is maintained in compliance with standards contained in Massachusetts State Building Code 780

C.M.R., et. seq., as amended. If, upon inspection, the BUILDING COMMISSIONER concludes that a TOWER fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the TOWER, the owner shall have thirty (30) days to bring such TOWER into compliance with such standards. Failure to bring such TOWER into compliance within said thirty (30) days shall constitute grounds for the removal of the TOWER or ANTENNA at the owner's expense.

 - 2. In locations where the visual impact of the TOWER would be minimal, the landscaping requirement may be substituted elsewhere on the property at the sole discretion of the SPECIAL PERMIT GRANTING AUTHORITY.
 - 3. All landscape plantings must be continually maintained.

6.2.82 Ancillary Facilities

Any proposed ANCILLARY FACILITY shall not be more than twelve feet (12) in height. The ANCILLARY FACILITY shall be no more than three hundred sixty (360) square feet in area, and there shall be no more than three (3) such facilities located on the site. In the case of CO-LOCATION, a shared ANCILLARY FACILITY may be built to a height not to exceed twenty (20) feet and may contain a maximum of three hundred and sixty (360) square feet for each provider. Such ANCILLARY FACILITIES must satisfy the minimum ZONING DISTRICT setback requirements for ACCESSORY STRUCTURES.

6.2.83 TOWERS shall either maintain a galvanized steel finish or, subject to any applicable standards of the FAA, be painted a neutral color so as to reduce visual obtrusiveness.

6.2.84 At a TOWER site, the design of the ANCILLARY FACILITIES shall, to the extent possible, use materials, colors, textures, screening, and landscaping that will blend them into the natural setting and surrounding BUILDINGS.

6.2.85 Lighting

No exterior lighting is permitted except as follows:

- A. The ANCILLARY FACILITIES enclosing electronic equipment may have one (1) light at the entrance to the BUILDING, provided that the light is attached to the BUILDING, is focused downward and is switched so that the light is turned on only when workers are at the BUILDING; and
- B. No lighting is permitted on a TOWER except lighting that specifically is required by the FAA.

6.2.86 No SIGNS are permitted except those required by the FCC or by law, such as warning and equipment information SIGNS. Signs shall not exceed four (4) square feet.

- G. ANTENNAS on existing TOWERS. An ANTENNA may be attached to an-existing TOWER to minimize adverse visual impacts associated with the proliferation and clustering of TOWERS. CO-LOCATION of ANTENNAS by more than one (1) CARRIER on existing TOWERS shall take precedence over the construction of new TOWERS, provided such CO-LOCATION is accomplished in a manner consistent with the following:
 - 1. A TOWER which is modified or reconstructed to accommodate the co-location of an additional ANTENNA shall be of the same TOWER type as the existing TOWER, unless reconstruction as a MONOPOLE is proposed.
 - 2. An existing TOWER may be modified or rebuilt to a taller height, not to exceed the maximum TOWER HEIGHT established by this Section, with approval from the SPECIAL PERMIT GRANTING AUTHORITY.

SECTION 6.2.90 CO-LOCATION

- 6.2.91** The CITY requires that LICENSED CARRIERS share WIRELESS COMMUNICATION facilities and sites where feasible and appropriate, thereby reducing the number of WIRELESS COMMUNICATION facilities that are stand-alone facilities. All applicants

for a special permit for a new WIRELESS COMMUNICATION facility shall demonstrate a good faith effort to co-locate with other carriers. Such good faith effort includes:

- A. A survey of all existing STRUCTURES that may be feasible sites for CO-LOCATING WIRELESS COMMUNICATION facilities;
- B. Notification by certified mail of intent to seek a Special Permit to all the other licensed carriers for commercial mobile radio services operating within five (5) miles of the site;

- D. A copy of a notice of Lease and affidavit of compliance with this section.

6.2.92 In the event that CO-LOCATION is claimed to be not technically feasible, a written statement of the reasons for the infeasibility shall be submitted to the Office of Planning and Economic Development. The Office of Planning and Economic Development may retain a technical expert in the field of RF ENGINEERING to verify if CO-LOCATION is not feasible or is feasible. The cost for such a technical expert will be paid by the applicant. The SPECIAL PERMIT GRANTING AUTHORITY may deny approval to an applicant that has not demonstrated a good faith effort to provide for co-location or CO-LOCATE on an existing WIRELESS COMMUNICATION TOWER.

6.2.93 If the applicant does intend to CO-LOCATE or to permit co-location, plans and elevations, which show the ultimate appearance and operation of the WIRELESS COMMUNICATION facility at full build-out shall be submitted.

6.2.94 All documentation shall be submitted with the application.

Section 6.2.100 Location Priorities

6.2.101 WIRELESS COMMUNICATION facilities shall be located and approved in accordance with the following prioritized locations listed below. Applicants shall demonstrate a good faith effort to locate a WIRELESS COMMUNICATION facility in a higher priority location in order to justify applying for a lower priority location.

- B. The second priority shall be an existing TOWER.

- C. The third priority shall be a new TOWER on land in an Industrial DISTRICT.
- D. The fourth priority shall be a new TOWER on land zoned for business uses, excluding land in the Business C district

Section 6.2.110 Site Plan Submission Requirements

6.2.111 In addition to the submission requirements of Article 12, the following information shall be submitted:

- A. Comprehensive Service Plan: In order to provide proper evidence that any proposed location of WIRELESS COMMUNICATIONS ANTENNAS (and any supporting TOWER and/or ANCILLARY FACILITIES enclosing related electronic equipment) has been planned to result in the fewest number of TOWERS within the City at the time full service is provided by the applicant throughout the City, the applicant shall submit a "Comprehensive Service Plan." Said Comprehensive Service Plan shall indicate how the applicant proposes to provide full service throughout the city. The Comprehensive Service Plan shall indicate the following:

 - 2. How the proposed location of the ANTENNAS relates to the location of any existing network TOWERS within and/or near the City;
 - 3. How the proposed location of the ANTENNAS relates to the anticipated need for additional ANTENNAS and supporting TOWERS within and/or near the City by the applicant;
 - 4. How the proposed location of the ANTENNAS relates to the objective of CO-LOCATING the ANTENNAS of different service carriers on the same TOWER; and
 - 5. How the proposed location of the ANTENNAS relates to the applicants overall objective of providing full WIRELESS COMMUNICATION services within the City while, at the same, limiting the number of TOWERS to the fewest possible.
- B. A scaled site plan and other siting documents. The submittal documents shall clearly indicate the location, type and height of the proposed TOWER, on-site land USES and ZONING DISTRICT, adjacent land USES and ZONING DISTRICTS, adjacent STREETS, proposed means of access, setbacks from

Such points shall be chosen by the CARRIER with review and approval by the Office of

Planning and Economic Development designee to ensure that various potential views are represented. Sight lines and photographs shall be shown as follows:

- a. Sight line representation. Sight line representations shall be drawn from the closest public roads and the closest residential BUILDINGS (viewpoint) to the highest point (visible point) of the WIRELESS COMMUNICATION facility. Each sight line shall be depicted in profile, drawn at one inch equals forty (40) feet. The profiles shall show all intervening trees and BUILDINGS.
 - b. Existing (before condition) photographs. Each sight line shall be illustrated by one (1) four-inch by six-inch (4" x 6") color photograph of what can currently be seen.
 - c. Proposed (after condition). Each of the existing condition photographs should have the proposed WIRELESS COMMUNICATION facility superimposed on it to show what will be seen from public roads if the proposed WIRELESS COMMUNICATION facility is built, including ANTENNA(s), mount(s), equipment shelters, cables as well as cable runs, and security barriers, if any, for the total height, width and breadth.
- C. An analysis of the RADIO FREQUENCY RADIATION (RFR) levels at the facility as a means of assessing compliance with the FCC Radio Frequency safety criteria. This analysis shall:
1. Take into consideration all co-located radio transmitting ANTENNAS and/or nearby ANTENNAS that could contribute to RFR levels at the facility.
 2. Be performed and stamped by a RF ENGINEER.
 3. Follow current methods recommended by the FCC for performing such analyses.

Section 6.2.120 Monitoring and Maintenance

- 6.2.121 After the WIRELESS COMMUNICATIONS TOWER is operational, the applicant shall submit, within ninety (90) days of beginning operations, and at annual intervals

from the date of issuance of the BUILDING PERMIT, existing measurements of RFR from the WIRELESS COMMUNICATIONS facility. Such measurements shall be signed and certified by a RF ENGINEER, stating that RFR measurements are accurate and meet FCC Guidelines as specified in the Radio Frequency Standards section of this section, as amended.

- 6.2.122 The applicant and co-applicant shall maintain the WIRELESS COMMUNICATIONS facilities in good condition. Such maintenance shall include, but shall not be limited to, painting, structural integrity of the mount and security barrier, and maintenance of the buffer areas and landscaping.

Section 6.2.130 Abandonment or Discontinuation of Use

- 6.2.131 At such time that a licensed CARRIER plans to ABANDON or discontinue operation of a WIRELESS COMMUNICATIONS facility, such CARRIER shall notify the BUILDING COMMISSIONER by certified U.S. Mail of the proposed date of abandonment or discontinuation of operations. Such notice shall be given no less than thirty (30) days prior to abandonment or discontinuation of operations. In the event that a licensed CARRIER fails to give such notice, the WIRELESS COMMUNICATIONS facility shall be considered abandoned upon discontinuation of operations.

- 6.2.132 Upon ABANDONMENT or discontinuation of use, at the option of the BUILDING COMMISSIONER, the CARRIER shall physically remove the WIRELESS COMMUNICATIONS facility within ninety (90) days from the date of abandonment or discontinuation of use. "Physically remove" shall include, but not limited to:

- B. Proper disposal of the waste materials from the site in accordance with local and state solid waste disposal regulations.
- C. Restoring the location of the WIRELESS COMMUNICATIONS facility to its pre-development condition, except that any landscaping and grading shall remain in the after-condition.
- D. If a CARRIER fails to remove a WIRELESS COMMUNICATIONS facility in accordance with this section, the BUILDING COMMISSIONER shall have the authority to enter the subject property and physically remove the facility. The BUILDING COMMISSIONER shall require the applicant to submit an Irrevocable Letter of Credit prior to issuing a BUILDING PERMIT to cover

costs for the removal of the WIRELESS COMMUNICATIONS facility in the event the City must remove the facility.

The purpose of this Section is to regulate adult entertainment and sexually oriented businesses in order to promote the health, safety and general welfare of the citizens of Springfield and surrounding communities. The provisions of this Section have neither the purpose nor the effect of imposing a limitation or restriction on the content of any communicative materials, including sexually oriented materials. It is neither the intent nor the effect of this Section to restrict or deny access by adults to sexually oriented materials protected by the First Amendment.

6.3.12 Findings

Based on evidence concerning the adverse secondary effects of ADULT ENTERTAINMENT uses on the community presented in hearings and reports made available to the City Council, and on findings incorporated in the cases of *City Council of Erie v. Pap's A.M.*, 529 U.S. 277 (2000); *Barnes v. Glen Theatre, Inc.*, 501 U.S. 560 (1991); *City of Renton v. Paytime Theatres, Inc.*, 475 U.S. 41 (1986); *Young v. American Mini Theatres*, U.S. 50 (1976); and other studies in other communities including, but not limited to Phoenix, Arizona; Minneapolis, Minnesota; St. Paul, Minnesota; Houston, Texas; Garden Grove, California; Los Angeles, California; Whittier, California; Austin, Texas; Seattle, Washington; Oklahoma City, Oklahoma; Cleveland, Ohio; Beaumont, Texas; Dallas, Texas; Newport News, Virginia; Bellevue, Washington; New York, New York; and St. Croix County, Wisconsin, the City Council finds:

- A. Adult entertainment and sexually oriented businesses lend themselves to ancillary, unlawful and unhealthy activities that are presently uncontrolled by the operators of the establishments.
- B. Employees of adult entertainment and sexually oriented businesses engage in higher incidence of certain types of illicit sexual behavior than employees of other establishments.
- C. Sexual acts occur at adult entertainment and sexually oriented businesses.
- D. Adult entertainment and sexually oriented businesses encourage illicit sexual acts which create unhealthy conditions.
- E. At least fifty (50) communicable diseases may be spread by activities occurring in adult entertainment and sexually orientated businesses,

including, but not limited to, syphilis, gonorrhea, human immunodeficiency virus (HIV-AIDS), genital herpes, hepatitis B, salmonella infections and shingella infections.

- F. Since 1981 and to the present, there has been an increasing cumulative number of reported cases of AIDS (Acquired Immunodeficiency Syndrome) caused by the human immunodeficiency virus (HIV) in the United States.
- G. The findings noted in subsections A. through F. raise substantial governmental concerns.
- H. Adult entertainment and sexually oriented businesses have operational characteristics which should be reasonably regulated in order to protect those substantial governmental concerns and, where necessary, should be banned or eliminated where they are or have been causing effects which are harmful to the health, safety and welfare of the citizens of Springfield and the surrounding communities.
- I. The general welfare, health and safety of the citizens of the City will be promoted by the enactment of this Ordinance.

ARTICLE 7 SITE REGULATIONS

SECTION 7.0 PURPOSE

The purpose of this Article is to establish site planning standards. In combination with Article 5, these provisions will help an applicant layout a site based on requirements for OFF-STREET PARKING, LANDSCAPING and SCREENING that are needed.

SECTION 7.1 OFF-STREET PARKING

Section 7.1.10 Off-street Parking Approach

The purpose of this section is to establish flexible regulations designed to ensure that adequate parking is provided for a particular use, taking into consideration its location and the type of neighborhood in which it is located. The number and location of parking spaces associated with a USE has a significant effect on the urban design quality of a place. This section balances the need for adequate parking with the need to avoid the negative impacts of highly visible parking lot construction, fitting parking facilities into the urban fabric in a manner that strengthens the City's economy and improves its appearance.

Section 7.1.20 Applicability

Section 7.1 shall apply in all ZONING DISTRICTS, except that there shall be no OFF-STREET PARKING requirement imposed within the Business C District for non-residential USES.

Section 7.1.30 Number of Off-street Parking Spaces by Use Category

- 7.1.31 The presumptive parking requirements for land uses established below are intended to be adapted and modified to reflect the particular characteristics of a specific USE and the neighborhood in which it is located.
- 7.1.32 The requirements in Table 7-1 may be reduced in the course of Site Plan or Special Permit review based upon information presented by the applicant and city agencies. The applicant's own estimate of parking demand, based upon the type of USE involved and its location, shall be given substantial deference. Other relevant considerations include:
- A. The availability of public transportation;
 - B. Whether the subject property lies within walking distance from shopping, employment, restaurants, housing, schools, and other trip destinations;
 - C. The availability of shared parking with binding agreements to secure its long-term availability; where adjoining parking areas are connected

directly to one another or to a service road or alley to reduce turning movements onto roads.

- D. The availability of safely usable on-street parking,
- E. The provision of bicycle storage facilities, showers, lockers and related facilities to encourage bicycling; and
- F. The establishment of transportation demand management measures to reduce automobile use.

7.1.33 In addition, “Parking Generation, 3d edition” (2004) published by the Institute of Transportation Engineers and “Shared Parking Planning Guidelines” (ITE 1995) or any subsequent editions of both documents, may be consulted for non-binding guidance in establishing appropriate parking requirements for a particular use.

7.1.34 For uses that are not listed in Table 7-1 below, there shall be no presumptive parking requirement and parking requirements shall be established at the time of Site Plan or Special Permit Review, based upon the criteria in Section 7.1.32 and 7.1.33.

7.1.35 If the USE category is allowed by right, and an applicant is applying for a BUILDING PERMIT under Section 11.1, then the applicant may request a Tier 1 Administrative Site Plan Review (Section 12.2) to change the presumptive parking requirements.

7.1.36 The term FLOOR AREA in Table 7-1 means NET FLOOR AREA and fractions should be rounded down to the closest whole number.

7.1.37 For developments with more than one (1) USE, parking shall be the cumulative parking requirements for all USES unless applicant provides evidence for a lower amount in accordance with 7.1.32.

7.1.38 Section 7.1.60 below includes additional parking alternatives.

Section 7.1.40 Dimensions of Off-street Parking Spaces

- 7.1.41** In a parking lot or parking BUILDING at least fifty (50) percent of the parking spaces must be eight and one-half (8 ½) feet wide by eighteen (18) feet deep. The remaining parking spaces may be eight (8) feet by sixteen (16) feet to accommodate smaller cars.
- 7.1.42** These parking space sizes are exclusive of driveways and aisles which must have direct access to a STREET or alley. Aisle widths are shown on Table 7-2.
- 7.1.43** Bumper or wheel guards shall be provided to keep cars from hanging over the public right-of-way or pedestrian facilities.

Table 7-2 Dimensional Requirements for Parking Drive Aisles	
Angle of Parking	Minimum Aisle Width
Parallel	12 feet
45°	13 feet

Section 7.1.50 Design of Off-street Parking Areas

7.1.51 Applicability

This Section applies to all USES other than SINGLE-FAMILY and TWO-FAMILY DWELLINGS.

7.1.52 Location of Required Parking

- A. All OFF-STREET PARKING shall be located behind or to the side of the PRINCIPAL BUILDING.
- B. The intent of Section 7.1.52(A) is to maintain a pedestrian friendly neighborhood where OFF-STREET PARKING is primarily located behind or to the side of a PRINCIPAL BUILDING and to encourage the extension of these types of neighborhoods in connection with proposed new development. This Ordinance recognizes, however, that there are numerous locations throughout the City where it is inappropriate to require that OFF-STREET PARKING to be located behind or to the side of the PRINCIPAL BUILDING because of the character of the neighborhood where OFF-STREET PARKING is primarily located in the front of BUILDINGS. The OFF-STREET PARKING location requirement set forth in Section 7.1.52(A) shall therefore only be applicable where it is appropriate to the neighborhood. As a result, the OFF-STREET PARKING location requirement shall be modified or waived in the course of site plan review or special permit approval process in Business A, Business B, Business B-1, Business D, Industrial P and Industrial A districts and in any other zoning district where the predominant character of the surrounding development consists largely of BUILDINGS with parking in the front of the BUILDING. Any such modification or waiver shall be based upon the recommendation of the Office of Planning & Economic Development. Where OFF-STREET PARKING is permitted in the front of Buildings, the Applicant shall establish a reasonable buffer between such parking areas and the adjacent street and sidewalk, if applicable.
- C. Required OFF-STREET PARKING shall be provided either on the same LOT as the PRINCIPAL USE it is intended to serve, or on a LOT that is in the same ownership as the PRINCIPAL USE and located within three hundred (300) feet of it. OFF-STREET PARKING may be located on leased property within three hundred (300) feet if evidence of an executed lease is presented with an application.
- D. OFF-STREET PARKING shall be clearly marked or striped which shall be maintained over time.

- E. Parking required for two (2) or more BUILDINGS or USES may be provided in combined OFF-STREET PARKING facilities where such facilities will continue to be available for such BUILDINGS or uses.

7.1.53 Interior Parking Lot Landscaping and Design

- A. Parking lots shall be designed and landscaped to avoid long, uninterrupted rows of vehicles by breaking them into separate parking lots divided by tree lines, alleys, pedestrian areas, or BUILDINGS. Parking lots containing more than seventy (70) spaces shall be divided into smaller areas by landscaped islands at least ten (10) feet wide located no more than one hundred and twenty (120) feet apart.
- B. All islands shall be planted with three inch (3") minimum caliper shade trees native to the region or otherwise proven to be able to withstand conditions in urban parking lots, with at least one (1) tree for every thirty (30) linear feet of island.
- C. Parking lots containing less than sixty (60) spaces shall provide at least one (1) three (3) inch minimum caliper shade tree per fifteen (15) spaces. In addition, all parking lots and vehicle display areas shall have a minimum of a three (3) foot landscaped buffer between the parking lot and the abutting sidewalks or STREET.

7.1.54 Perimeter Screening of Off-street Parking Areas

- A. OFF-STREET PARKING that adjoins LOTS in Residential Districts shall be screened from such Residential LOTS, as follows:
 - 1. All illumination located in on OFF-STREET PARKING lots shall be shielded to avoid shining on abutting or other properties.
 - 2. Such OFF-STREET PARKING shall use a BUFFER PLANTING STRIP consisting of a pervious landscaped surface, at least as wide as designated in Table 7-3 for buffers between adjoining ZONING DISTRICTS.
 - 3. Such BUFFER PLANTING STRIP shall be landscaped for its full length and width and give maximum protection to an abutting property or district while also meeting the requirements for SIGHT TRIANGLE AREA described in Section 5.2.70.

4. The required screen shall be permanently maintained. It shall consist of dense evergreens, or an approved equal, not less than four (4) feet in height, and an appropriate wall or solid FENCE, not less than four (4) feet in height. (See Figure 7-1)

Figure 7-1 Buffer Planting Strip

- B. Residential USES which abut or are across the STREET from an OFF-STREET PARKING lot shall be protected from headlight glare by either:
 1. A BUFFER PLANTING STRIP of at least seven (7) feet wide, densely planted with shrubs or trees which are at least three (3) feet high at the time of planting and which are of a type that may be expected to form a year-round dense screen.
 2. Such screening shall be maintained in good condition at all times, and may be interrupted by normal entrances or exits.

7.1.55 Construction and Maintenance of Off-street Parking Lots

- A. OFF-STREET PARKING lots shall be surfaced and properly maintained with a suitable durable surface appropriate for the USE of the land, with adequate drainage. Parking spaces must be clearly marked and striped.

Surfacing, grading, and drainage shall facilitate groundwater recharge in order to reduce stormwater runoff. All parking plans shall be reviewed and approved by the DEPARTMENT OF PUBLIC WORKS.

7.1.56 Lighting

- A. Lighting within parking lots shall be on poles of twenty (20) feet maximum height, with color corrected lamps and cut-off luminaires designed to minimize glare and light pollution.

7.1.57 Nonconforming Parking Lots

- A. NONCONFORMING parking lots shall be brought into conformity with this Section 7.1.30 to the extent practical whenever a Site Plan or Special Permit application is filed for either:
 - 1. The expansion of a USE by more than twenty-five (25) percent gross FLOOR AREA, expansion of the parking area by more than twenty-five (25) percent of the number of parking spaces or
 - 2. A new USE that will require an increase of more than twenty-five (25) percent in the number of parking spaces.

Section 7.1.60 Alternative Parking Solutions

7.1.61 Shared Parking

- A. Where an application for a BUILDING PERMIT, Site Plan Approval, or Special Permit proposes shared parking with one (1) or more other separately owned properties and such shared parking has been approved, the owners of the properties shall enter into a legal agreement guaranteeing access to, use of, and management of designated shared parking spaces.
- B. The agreement shall be in a form approved by the City Law Department and shall be included as an enforceable condition of any BUILDING PERMIT, Site Plan approval, or Special Permit.

7.1.62 Reduction of Parking Requirements for Providing Interconnections or Dedication of Land

- A. Parking requirements may be reduced at the discretion of the reviewing authority where adjoining parking areas are connected directly to one

another or to a service road or alley to reduce turning movements onto roads.

Section 7.1.70 Parking of Trucks, Buses, and Commercial Vehicles

7.1.71 Parking stalls for trucks, buses, or other commercial vehicles exceeding either seven and a half (7 ½) feet in width or eighteen (18) feet in length shall be located at least one hundred (100) feet from the nearest DWELLING UNIT in a residential district.

7.1.72 Stalls for such vehicles shall be specifically identified in the site plan, and shall be of such dimensions as to accommodate the specified type of vehicle. Such vehicles shall be permitted to park only in the stalls so identified and approved.

SECTION 7.2 OFF-STREET LOADING

The specific loading requirements for a particular proposed USE shall be established through the Special Permit and /or Site Plan Review process based upon the operational characteristics of the use. Within the Business C District, OFF-STREET LOADING shall only be required if it is a practical option due to the availability of adequate space in a rear parking lot or alley.

Section 7.2.10 Layout of Loading Facilities

7.2.11 Each loading space shall be not less than ten (10) feet in width, fourteen (14) feet in height, and of such length that a truck or trailer occupying such a space shall be located entirely on the LOT with the BUILDING it is to serve, and shall not extend into sidewalks or the STREET.

7.2.12 Loading spaces may not include any of the required parking area. However, access ways and aisles may be used in common approaches to both parking areas and loading areas where approaches to both parking areas and loading areas are adequate for both.

SECTION 7.3 ACCESS AND CIRCULATION

Section 7.3.10 Driveway and Access Location Standards

7.3.11 Access to Off-street Parking areas

- A. No area used for OFF-STREET PARKING or vehicle storage shall directly abut a STREET unless separated from the STREET or highway by a raised curb, planting strip, wall, or other effective barrier.

- B. No LOT shall have more than two (2) access ways to any one (1) public STREET for each five hundred (500) feet of FRONTAGE. ACCESS DRIVES must have a minimum of twenty (20) feet width but shall not be more than thirty-five (35) feet in width.
- C. Parking stalls in OFF-STREET PARKING lots shall be set back from the FRONT LOT LINE, a minimum of three (3) feet to avoid the probability of cars backing or otherwise maneuvering on the sidewalk upon entering or leaving the stalls.
- D. Curbs shall be provided to prevent MOTOR VEHICLES from being parked within required YARD areas, or beyond the boundaries of the LOT where no YARD is required.
- E. In accordance with a Tier 2 Site Plan Review (Section 12.3) the Planning Board may authorize, but not require, the owners of adjoining properties to establish common driveways under reciprocal easements provided that any such Special Permit shall not become effective until the easement has been recorded, notwithstanding the provisions above.

7.3.12 Access to Multi-Family Dwellings

- A. In conformance with Section III-C of the Subdivision Rules and Regulations, the Planning Board shall determine the requirements for adequate access to each BUILDING. This includes the construction characteristics of the access driveways. In no case shall an access driveway or DRIVE be less than twenty (20) feet in paved width.
- B. Principal criteria to be considered in this Site Plan Review are:
 - 1. The distance from each BUILDING to the nearest way providing access. Generally, no rear wall of any BUILDING shall be more than three hundred (350) feet from a STREET built to City standards and no BUILDING shall exceed three hundred (300) feet in length.
 - 2. Number of DWELLING UNITS or PARKING SPACES to be served by the way.
 - 3. Accessibility to fire and other emergency or service vehicles.

Section 7.3.20 Accessory Drive-through Facilities

7.3.21 Except in the Business D District, no ACCESSORY DRIVE-THROUGH FACILITIES shall be located in the REQUIRED FRONT YARD or in any REQUIRED SIDE OR REAR YARD abutting a residential district, unless this requirement would make the accessory drive-through infeasible, which determination shall be made, taking into account the required configuration of the building and related drive-through structure in order to provide drive-through services in relation to the size, shape and topography of the lot where such USE is proposed to be carried out. This prohibition applies to STRUCTURES, stacking lanes, and other related facilities.

7.3.22 This Section shall not prevent ACCESS DRIVES to DRIVE-THROUGH facilities from crossing such REQUIRED YARDS to gain access to properly located STRUCTURES, stacking lanes, and other facilities.

SECTION 7.4 FENCING, LANDSCAPING, AND SCREENING

Section 7.4.10 Purpose & Applicability

In order to buffer adjacent land USES of different intensities and promote public health and safety, this Section provides standards for fencing, landscaping, screening and buffering design. The screening of OFF-STREET PARKING areas is covered in Section 7.1.

Section 7.4.20 Fences and Vegetative Barriers

7.4.21 A Tier 4 Special Permit shall be required for construction of a FENCE greater than six (6) feet in height that is located either in a Residential District or within ten (10) feet of a LOT LINE of a Residential USE.

7.4.22 Except in a Residential District, a wall or Fence less than six (6) feet in height above the finished grade may be permitted in a required Side or Rear Yard.

7.4.23 Residential District Fencing Standards

- A. In a Residential A-1 or A district, no FENCE shall be constructed between the front foundation line and the STREET or in a required FRONT YARD.
- B. In a Residential B, B-1 or C district, no FENCE greater than four (4) feet in height shall be constructed between the front foundation line and the STREET or in a required FRONT YARD.

- C. In all Residential Districts, FENCES, walls and vegetative barriers located within the SIGHT TRIANGLE described in Section 5.2.70 shall comply with the standards in that Section.

7.4.24 In all ZONING DISTRICTS, razor or barbed wire shall not be located along the FRONT LOT LINE. FENCES that abut a Residential USE or that are within a Residential DISTRICT shall not contain razor or barbed wire.

7.4.25 Gates must swing inwards at the property line so as not to obstruct the sidewalk or right of way.

SECTION 8.3 REGIONAL SHOPPING CENTER OVERLAY DISTRICT

Section 8.3.10 Purpose

The stability and vitality of Springfield's large SHOPPING CENTERS is vitally important to the economic welfare of Springfield and the neighborhoods in which these SHOPPING CENTERS are located. Since large anchor stores are a critical element in the success of a SHOPPING CENTER, it is necessary and appropriate to protect other users of the SHOPPING CENTER from potential harm that may be caused by changes to or the loss of an anchor store. Changes in USE or division of anchor stores in these locations into smaller shops can have a negative or positive impact on the

viability of these commercial areas if the result is a significant change in customer traffic to the area. If the impact is a reduction in customer traffic, the result can be ABANDONED storefronts and blighted BUILDINGS. In order to protect the stability and viability of these areas and to prevent urban blight, Special Permit review is required to ensure that any change of USE or division of space in these locations does not adversely affect neighboring uses, BUILDINGS or the public welfare.

Section 8.3.20 Location

The Regional Shopping Center Overlay District is indicated on the official Springfield ZONING MAP. This Section contains general design standards that apply to all locations where a Regional Shopping Center Overlay District has been mapped.

Section 8.3.30 Use Regulations

Within the Regional Shopping Center Overlay District, a Special Permit by the City Council (Tier 4 Review) for the following changes of uses or division of retail space occurring within a SHOPPING CENTER, where the change of use or division of space occurs in a building with a building footprint of 50,000 square feet or more:

- 8.3.31** Any change of use involving the conversion of retail sales and services or personal services businesses to a use in any other category (unless such category is exempted from Special permit review by state law), and any division of interior space into two (2) or more smaller spaces, whether by subdivision of land, creation of separate leaseholds or licenses, division by condominium, or any other kind of spatial division that grants the right of different operators to use one existing interior space.
- A. No BUILDING PERMIT shall be granted for the erection or demolition of interior walls of a STRUCTURE regulated by subsection (1) until such Special Permit approval is granted.
 - B. In issuing its determination as to whether or not to grant Special Permit approval, the City Council shall consider the impact of such change of USE or division of space on the character, built environment, vehicular and pedestrian access, traffic patterns, physical appearance, and structural integrity of the SHOPPING CENTER as a whole. The City Council shall grant approval only if it finds that such division will not have a negative impact on the SHOPPING CENTER as a whole. The City Council shall take into consideration the mix of uses and the sizes of different uses.
 - C. The City Council's approval of a Special Permit under this section may include a requirement that existing pedestrian and vehicular access and

connections between uses be maintained, or that comparable substitute access is provided. Such pedestrian access may include the existing interior pedestrian connections between retail spaces within or between BUILDINGS.

- D. A SHOPPING CENTER which is held in single ownership shall be exempt from the provisions of this section.

SECTION 8.4 FLOODPLAIN OVERLAY DISTRICT

 - C. All plans shall show two (2) foot contour intervals and contours shall be delineated within two hundred (200) feet of the proposed construction.
 - D. When neighboring communities are affected by altered or relocated watercourses, said communities and the Massachusetts Division of Water Resources shall be notified prior to the commencement of such activity. Submit copies of said notification to Federal Insurance Agency (F.I.A.)

- E. All permits required by Federal or State Law, including Section 404 of the Federal Water Pollution Control Act, Amendments of 1972, 33 U.S.C. 1334, have been or are in the process of being obtained.

- D. Prevention of flotation, collapse and movement of STRUCTURES.
- E. Prevention of flood damage to public utilities including sewer, water, gas, and electric.

alteration or addition of residential STRUCTURES, shall have the lowest floor including basement, elevated to or above the one hundred (100) year flood level and any new construction, alteration or addition of nonresidential STRUCTURE shall have the lowest floor, including basement, elevated or flood proofed to or above the one hundred (100) year flood level.

- H. Where watertight flood proofing of a STRUCTURE is permitted, a professional engineer or architect registered in the Commonwealth of Massachusetts shall certify that the methods used are adequate to withstand the flood depths, pressures and velocities, impact and uplift force and other factors associated with the one hundred (100) year flood.
- I. Located within the Flood Plain District are areas designated as floodways. Since the floodway is an extremely hazardous area due to the velocity of Flood Waters which carry debris, potential projectiles, and erosion potential, the following provisions shall apply:
 - 1. Encroachment, including fill, new construction, any alteration or addition and other DEVELOPMENT shall be prohibited unless certification by the engineer, surveyor or architect is provided demonstrating that encroachments shall not result in any increase in flood levels during the occurrence of one hundred (100) year flood, and the Board of Appeals is satisfied that the encroachment will not derogate from the intent of this section of the by-law.
 - 2. If Section 8.3.23. I.1 above is satisfied, all new construction and any alteration or addition shall comply with all provisions of Section 8.3.20.
 - 3. Within fourteen (14) days after receipt of the application by the Board of Appeals, the Board shall transmit copies thereof, together with copies of the accompanying plan to the Board of Health, Engineering Department and the Conservation Commission or any other agency. Such agencies shall investigate the application and report in writing their recommendation to the Board of Appeals.
 - 4. The Board of Appeals shall not take final action on such application until it has received a written report from the above agencies or until forty-five (45) days have elapsed without receipt of said reports.

Section 8.4.30 Disclaimer of Liability

This Ordinance does not imply that land outside the areas of the Flood Plain District or uses permitted within such district will be free from flooding or flood damage. This by-law shall not create liability on the part of the CITY or by any official thereof for any flood damage that may result from reliance on this Ordinance or any administrative decision lawfully made there-under.

Section 8.4.40 Mobile Homes and Mobile Home Parks

MOBILE HOMES and MOBILE HOME PARKS are not permitted within the Flood Plain District.

Section 10.2 Nonconforming Lots

Section 10.3 Pre-Existing Special Permit Uses

ARTICLE 10 NONCONFORMING USES, STRUCTURES, AND LOTS

SECTION 10.0 PURPOSE

The purpose of this Article is to address situations where a USE of land or a STRUCTURE legally existed prior to the adoption of this Ordinance but no longer conforms to one (1) or more requirements of this Ordinance. Such a USE of land or a STRUCTURE is known as “NONCONFORMING.” This Article describes how such USES and STRUCTURES may continue and how changes to NONCONFORMING USES and STRUCTURES may occur. The article also addresses NONCONFORMING LOTS and previously approved Special Permit USES.

SECTION 10.1 NONCONFORMING STRUCTURES AND USES

Section 10.1.10 Applicability

10.1.11 This Ordinance, and amendments thereto, shall not apply to STRUCTURES or USES lawfully in existence or lawfully begun, or to a BUILDING PERMIT or Special Permit issued before the first publication of notice of the public hearing required by M.G.L. Chapter 40A, Section 5, at which this Ordinance, or any part thereof, was adopted or amended.

10.1.12 This Ordinance, and amendments thereto, also shall not apply to a development project (including any future extensions, modifications, alterations or changes to structures or uses thereof), and the LOT(s) on which such development project is located as shown on an endorsed Approval-Not-Required (ANR) plan, if, as of the date of the final City Council vote adopting this Ordinance, the development project has received a Certificate from the Secretary of the Executive Office of Energy and Environmental Affairs with respect to a filed Environmental Notification Form (ENF) for the development project (which ENF included an analysis of traffic impacts and related mitigation).

10.1.13 Prior lawfully existing NONCONFORMING USES and STRUCTURES may continue until ABANDONED, provided that no extension, modification, alteration or change of such USE or STRUCTURE may be made except as provided in this Article 10.

Section 10.1.20 Nonconforming Uses

NONCONFORMING USES of BUILDINGS, STRUCTURES, and land may continue. Except as otherwise required by M.G.L. Chapter 40A, Section 6, no NONCONFORMING USE of BUILDING, STRUCTURE, or land shall be changed to another USE which is substantially different from the former NONCONFORMING USE, except one which is permitted by this Ordinance in the district in which the USE is located. Whenever a NONCONFORMING USE of land, STRUCTURE or BUILDING has been changed to a conforming USE, it shall not thereafter be changed to a NONCONFORMING USE.

Section 10.1.30 Alteration of Nonconforming Structures or Uses

Preexisting NONCONFORMING STRUCTURES or USES may be extended or altered provided that no extension or alteration shall be permitted unless there is a finding by the permit granting authority or by a Tier 4 Special Permit Review by City Council that such change, extension or alteration shall not be substantially more detrimental than the existing NONCONFORMING USE to the neighborhood. Such findings shall be made by the special permit granting authority provided, however, that when the requested change is solely for the reconstruction, extension, or structural change of a pre-existing NONCONFORMING STRUCTURE with no change to the NONCONFORMING USE, such finding shall be made by the permit granting authority. Such finding shall be in the form of a Tier 4 Special Permit Review by City Council and such special permit shall conform to any subsequent amendments of this ordinance or bylaw unless the use or construction is commenced within a period of not more than six (6) months after issuance of the permit and in the case of construction, unless such construction is continued through to completion as continuously and expeditiously as is reasonable.

Section 10.1.40 Abandonment and Non-Use

Any NONCONFORMING USE of land, BUILDINGS or STRUCTURES not used or VACANT for a period of two (2) years or more shall not thereafter be re-established, except as provided below.

10.1.41 Non-Use, Residential

- A. A NONCONFORMING residential STRUCTURE consisting of one (1), two (2) or three (3) DWELLING UNITS, may be REUSED for the same USE provided that it complies with all applicable BUILDING CODE requirements.
- B. A NONCONFORMING residential STRUCTURE, consisting of four (4) or more DWELLING UNITS, may be re-established by Tier 4 Special Permit Review by City Council, which shall make its determination taking into consideration the need to productively REUSE older BUILDINGS in the City. In the course of such Special Permit Review the City Council may waive otherwise applicable YARD, BUILDING HEIGHT, and OFF-STREET PARKING requirements.

10.1.42 Non-use, Non-residential and Mixed-use

Any NONCONFORMING MIXED-USE BUILDING or non-residential STRUCTURE or USE, including but not limited to, MOTOR VEHICLE related USES such as auto repair, auto body, brake and muffler shops, JUNKYARD, STORAGE YARD, CONTRACTORS SHOP or yard, trucking and auto sales, not used or ABANDONED or VACANT for a period of two (2) years or more, shall not be re-established without a Special Permit from the City Council. The City Council shall make its determination based on standards found in Section 12.5 (Tier 4 Special Permits).

Section 10.1.50 Restoration of Damaged or Destroyed Buildings

A NONCONFORMING USE or BUILDING which has been partially damaged by fire, explosion, flood, riot, or other phenomenon, or legally condemned, may be restored and continued as-of-right PROVIDED, however, the estimated cost of such restoration does not exceed one-half (1/2) of the fair value of the BUILDING, based on replacement cost immediately prior to such damage.

Section 10.1.60 Agricultural Exemption

BUILDINGS or land used primarily for AGRICULTURE are exempt from subsections 10.2.20 and 10.2.30 of this section as provided in the Zoning Act, M.G.L. Chapter 40A, Section 3.

Section 10.1.70 Restoration of Wall or Roof

Nothing herein shall prevent the restoration of a wall or roof declared unsafe by the BUILDING COMMISSIONER.

SECTION 10.2 NONCONFORMING LOTS

Any LOT that at the effective date of this Ordinance, that does not meet the LOT AREA and/or FRONTAGE requirements of this Ordinance, but complies with any minimum area, FRONTAGE, width and depth requirements in force at the time the LOT was lawfully laid out by plan or deed, duly recorded, or any LOT shown on a plan endorsed with the words “Approval under the Subdivision Control Law not required”, or words of similar import, may be built upon for residential use, provided that such LOT is in a district zoned residential under the provisions of this Ordinance and meets the following additional conditions:

Section 10.2.10 A Lot in Single and Separate Ownership

- 10.2.11 For purposes of this Section 10.2, “single and separate ownership” shall mean that the owner of a specific LOT does not have a sufficient ownership interest in an adjacent LOT to control the USE and disposition of that LOT. Where one (1) or more owners can control the USE and disposition of adjacent LOTS, such LOTS shall be deemed to be in “common ownership.”
- 10.2.12 In the case of a LOT held in SINGLE AND SEPARATE OWNERSHIP as of January 1, 1971, a LOT with an area of four thousand (4,000) square feet or more and a FRONTAGE of forty (40) feet or more, may be built upon with the following forms of review:
- A. AS OF RIGHT for SINGLE-FAMILY DWELLING on LOTS with an area of at least 5,000 square feet and at least fifty (50) feet of FRONTAGE.
 - B. Subject to Tier 1 Administrative Site Plan Approval for SINGLE-FAMILY USE only on LOTS of less than 5,000 square feet or fifty (50) feet of FRONTAGE.

Such LOTS may not be used for a TWO-FAMILY DWELLING or MULTI-FAMILY DWELLING.

- C. In addition, the Planning Board may promulgate design standards to guide the design and approval of DWELLINGS built on such NONCONFORMING LOTS. Such standards shall be voluntary for single and TWO-FAMILY DWELLINGS built on LOTS with at least 5,000 square feet of LOT area and fifty (50) feet of FRONTAGE, and mandatory for NONCONFORMING LOTS with less than 5,000 square feet of single LOT area and forty (40) feet of FRONTAGE.

Section 10.2.20 Single Lot in Common Ownership with One Adjacent Occupied Lot

In the case of a single LOT held in ownership common with one (1) ADJACENT LOT that had a DWELLING on it at the time of enactment of this Ordinance or subsequent amendments thereto, a LOT with an area of five thousand (5,000) square feet or more with a FRONTAGE of fifty (50) feet or more, may be built upon for SINGLE-FAMILY or TWO-FAMILY use.

Section 10.2.30 Common Ownership of Four or Fewer Lots

In the case of four (4) or fewer such LOTS held in common ownership with those of ADJACENT land at the time of enactment of this Ordinance or subsequent amendments thereto, such LOTS with an area of five thousand (5,000) square feet or more and with a FRONTAGE of fifty (50) feet or more may be built upon for SINGLE-FAMILY or TWO-FAMILY USE regardless of the date of recording or endorsement.

Section 10.2.40 Common Ownership of More Than Four Lots

In the case of more than four (4) such LOTS held in common ownership with that of adjacent land at the time of the enactment of this Ordinance or subsequent amendments thereto, such LOTS may be built upon for SINGLE-FAMILY or TWO-FAMILY use only if the recording or endorsement occurred within five (5) years prior to the effective date of the amendments that made the LOTS NONCONFORMING, and the LOTS have an area of five thousand (5,000) square feet or more and a FRONTAGE of fifty (50) feet or more. In the case of more than four (4) NONCONFORMING LOTS in common ownership laid out more than five (5) years prior to the effective date of this Ordinance, the LOT LINES must be revised to conform with the minimum LOT size and FRONTAGE enacted as part of this Ordinance or subsequent amendments thereto.

Section 10.2.50 Side Yard Exemptions

In the case of any NONCONFORMING LOT upon which a SINGLE-FAMILY DWELLING or TWO-FAMILY DWELLING can be constructed in conformance with the above provisions, a SIDE YARD of not less than five (5) feet shall be permitted in Residential A-1, A, B, and C Districts, thereby exempting the STRUCTURE from the SIDE YARD requirements of this Ordinance.

Section 10.2.60 Merged Lots

For the purpose of this Ordinance, any NONCONFORMING LOT which is increased in size by eliminating abutting LOT LINES, shall not be considered a new LOT and, therefore, will not have to meet the required minimum LOT size for the district, as long as the total area of the combined LOTS is four thousand (4,000) square feet or more.

Section 10.2.70 Alteration of Single and Two-family Structures on Nonconforming Lots

In the following circumstances, the reconstruction, extension, alteration or change (collectively “alteration”) to a SINGLE OR TWO-FAMILY STRUCTURE on a NONCONFORMING LOT shall not be considered an increase in the NONCONFORMITY and shall be permitted as of right:

10.2.71 Alteration on Lots with Insufficient Area

Alteration to a STRUCTURE which complies with all current SETBACK, FRONTAGE, and BUILDING HEIGHT requirements, but is located on a LOT with insufficient area, where the alteration will also comply with all of these current requirements;

10.2.72 Alteration on Lots with Insufficient Frontage

Alteration to a STRUCTURE which complies with all current YARD, LOT AREA, and BUILDING HEIGHT requirements but is located on a LOT with insufficient FRONTAGE, where the alteration will also comply with all of these current requirements.

SECTION 10.3 PRE-EXISTING SPECIAL PERMIT USES

In the case of USES requiring a Special Permit, but existing prior to the date of a Special Permit requirement, the existing BUILDING may be rebuilt and/or expanded up to twenty-five (25) percent of the ground FLOOR AREA and the USE may be expanded up to twenty-five (25) percent of the LOT area, by Administrative Site Plan Review pursuant to Section 12.2. An expansion greater than twenty-five (25) percent shall require Special Permit Review pursuant to Section 12.5.

ARTICLE 12 SPECIAL PERMIT AND SITE PLAN REVIEWS

SECTION 12.0 PURPOSE

The purpose of Special Permits and Site Plan Review is to provide a predictable and expeditious development review process, tailored to the scale of a proposed DEVELOPMENT, to enable the City to promote economic development while ensuring compatibility of different uses and minimizing the impact of proposed uses on their surroundings. Such review is also intended to ensure that DEVELOPMENT is designed in a way that fulfills the purposes of this Ordinance.

SECTION 12.1 APPLICABILITY AND GENERAL PROVISIONS

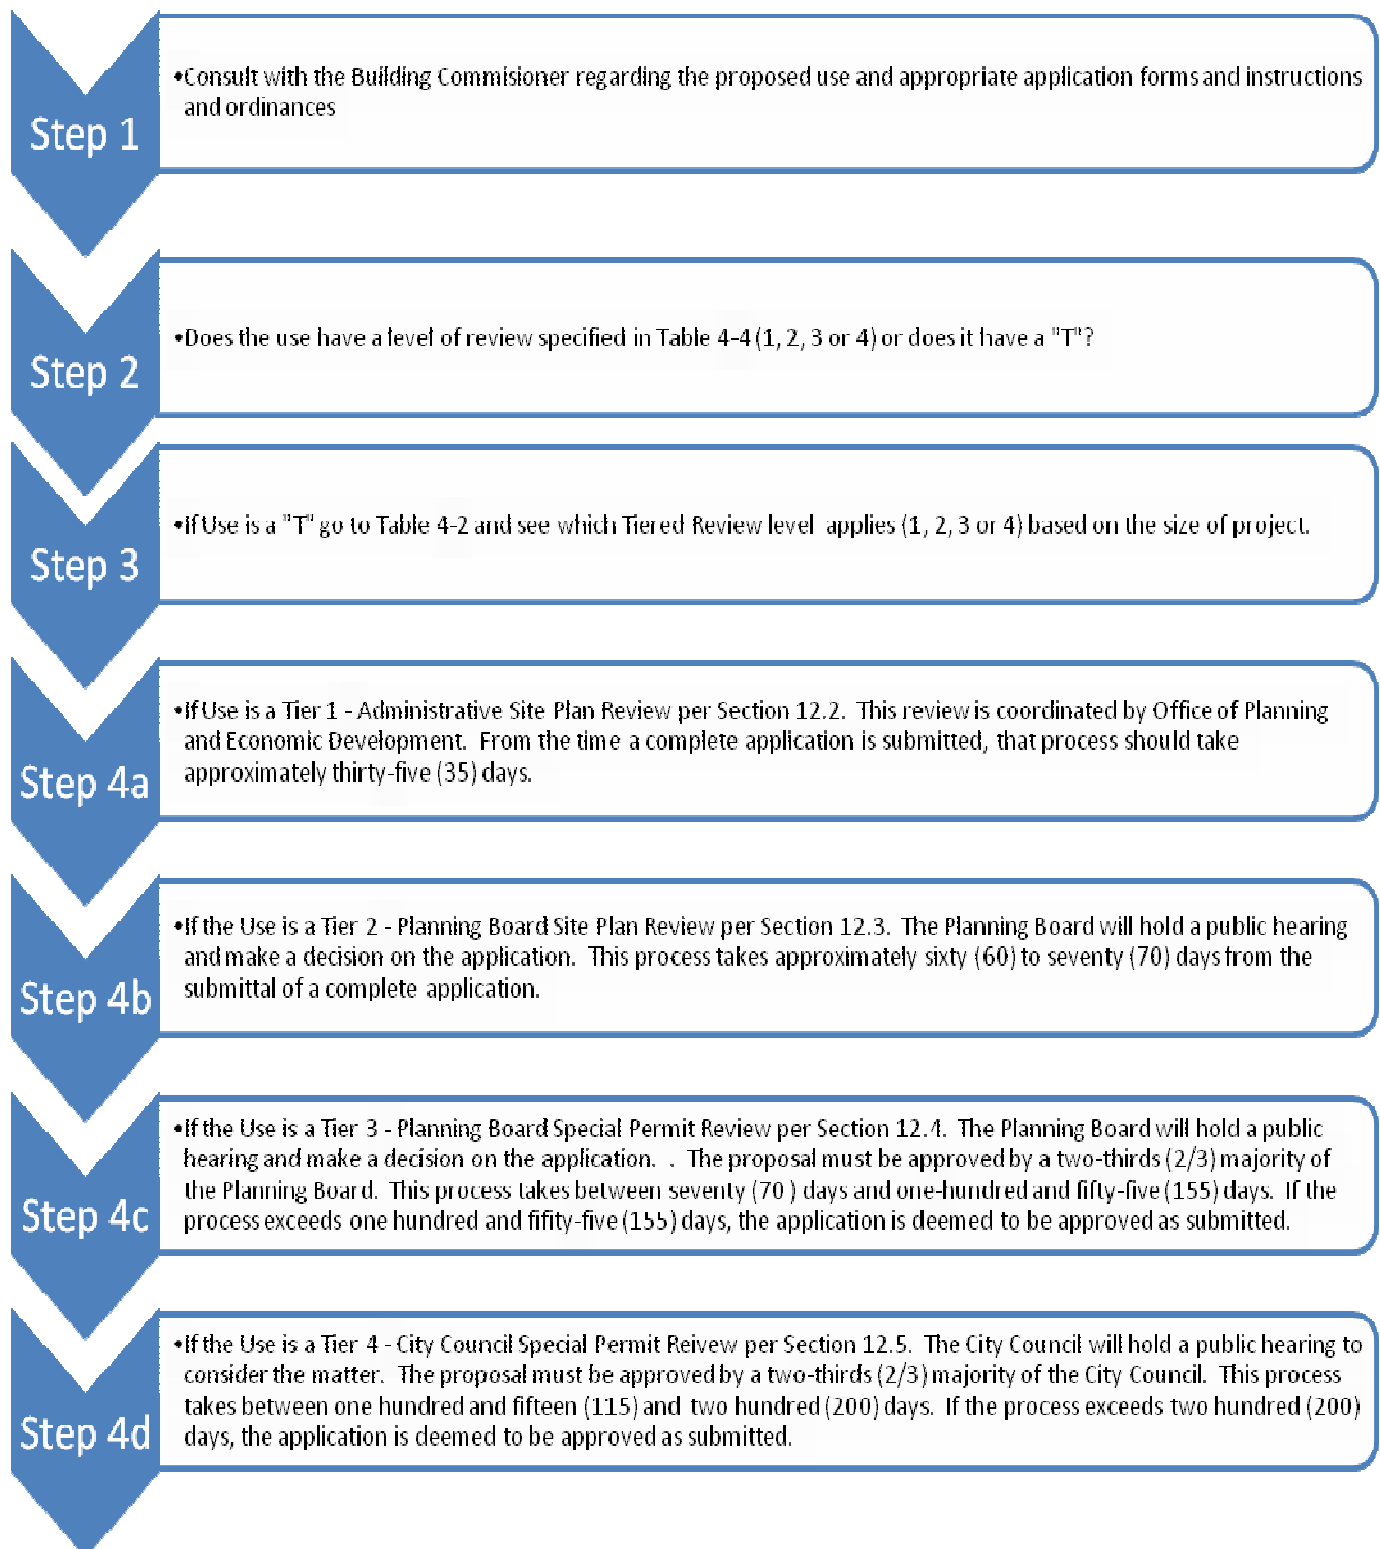

Section 12.1.10 Applicability

This Ordinance includes four (4) tiers of review as set forth in Section 4.2 – TIERED REVIEW System.

Section 12.1.20 Sequence of Steps

12.1.21 The following list provides the sequence of steps for the applicant as summarized in Diagram 12.1:

- A. An applicant for any type of DEVELOPMENT review is advised to first contact the BUILDING COMMISSIONER 'S Office for advice as to which type of review is required, as provided in Section 11.1.11. The BUILDING COMMISSIONER'S Office will make an initial screening review of the proposed project and indicate to the applicant whether one of the TIERED REVIEWS will apply to the application, and if so, which one.
- B. Based upon that initial review, the applicant will be directed to make a specific type of application either to the BUILDING COMMISSIONER 'S Office for a USE AS OF RIGHT, or to the Office of Planning and Economic Development for all development review tiers.
- C. If a proposed STRUCTURE or USE requires Site Plan Review and/or a Special Permit, after such approval has been issued, the applicant shall submit a BUILDING PERMIT or USE PERMIT application to the BUILDING COMMISSIONER 'S Office, consistent with all conditions and requirements of such approval. The BUILDING COMMISSIONER, in reviewing the application, shall ensure that all such conditions and requirements have been satisfied, including any required performance guarantees, and shall process the application as provided in Section 11.1.15.

Such costs may include consultant fees covering planning, engineering, environmental analysis, wetland delineation, legal review, and other professional and technical services required for a proper and thorough review of the application. No permit shall be issued until all costs have been paid. The City Treasurer shall deposit such fees into a segregated account and return unexpended funds to the applicant as provided in M.G.L. Chapter 44, Section 53G and any regulations adopted pursuant thereto by the respective boards. The Office of Planning and Economic Development shall engage in a competitive bidding process periodically to select a group of consultants it considers to be qualified to review development proposals. Applicants shall select review consultants, in fields deemed necessary by the City, from this list of qualified consultants, and such consultants shall be retained by the City at the applicant's expense as provided in M.G.L. Chapter 44, Section 53G. In the event that a proposed development requires specialized expertise for which none of the consultants on the City's list are qualified or that all consultants on the City's list have a conflict of interest in reviewing a particular development proposal, the City shall select a consultant that has the requisite expertise or that does not have such a conflict, and shall provide the applicant with the opportunity to comment on the City's proposed selection prior to retaining such consultant.

- 12.3.33** The Office of Planning and Economic Development shall make an initial review of the application for completeness and shall inform the applicant within seven (7) business days of submission of the application whether the application is complete or whether any additional information will be required. If the Office of Planning and Economic Development fails to act within the seven (7) business day period, the application shall be deemed complete. If the information is not provided within sixty (60) days of the initial Planning Board hearing, the application shall be denied.
- 12.3.36** The concurring vote of a majority of the members in attendance at the Planning Board meeting, at which a quorum is present, shall be required for any decision on a USE or DEVELOPMENT requiring Site Plan Review only. The Board's written decision shall approve the application as submitted or subject to reasonable conditions or modifications necessary to ensure compliance with the requirement of this Ordinance, consistent with the limitations set forth in Section 12.3.70. The

Planning Board may deny an application only where it determines that the application and site plan, with conditions attached and does not comply with zoning requirements. Such a denial may be based upon a finding by the Planning Board that more information is needed to determine compliance with zoning requirements, the applicant has been asked to provide such information, and that the applicant has not done so.

12.3.37 The Planning Board shall render a decision within ten (10) days of the close of the public hearing, and shall notify the applicant in writing within two (2) days of its decision to approve, approve with modifications or conditions, consistent with the limitations set forth in Section 12.3.70, or deny the application. If the Planning Board fails to render a decision within ten (10) days of the close of the public hearing, site plan approval shall be deemed to be granted. An applicant shall confirm such grant of approval by notifying the City Clerk in writing within fourteen (14) days of the expiration of the ten (10) days after the public hearing when there has been no decision by the Planning Board. After the expiration of twenty (20) days following the applicant's notification of the City Clerk that no decision was made by the Planning Board within the required ten (10) day period, and if there has been no notice of appeal pursuant to M.G.L. Section 17, or, if appeal has been taken, after receipt of certified records of the court in which such appeal is adjudicated, indicating that such approval has become final, the City Clerk shall issue a certificate stating that the Planning Board failed to take action within the required ten (10) day period, the date the approval became final (10 days after the public hearing, unless an appeal was taken), and that the approval resulting from such failure to render a decision has become final. Such certificate shall be forwarded to the applicant, the Planning Board, the Building Commissioner, and the Office of Planning and Economic Development.

- 12.3.39 Any Site Plan approval granted under this Ordinance shall expire within two (2) years if no BUILDING PERMIT has been granted or, if no BUILDING PERMIT is required to implement the Site Plan approval, if construction has not begun.
